

it's Section 36, which I believe there's an amendment to act on separately. But this section of the bill states or this amendment to the bill stated how the 20 percent of the income tax of the individual would be handled. It goes back to the local school district. As proposed in the committee amendment, obviously, the school does not get the 20 percent, but the school district of residence of the employee would have had 20 percent counted in their accountable receipts in determining equalization aid, even though they, in fact, did not get the...did not get the money. As the bill was introduced, it was also felt that the burden, if there is one, upon school districts was spread statewide. And one of the things that the committee was attempting to do was to localize that impact, not have it affected on a statewide basis, but the adverse impact, to the extent that there was, would essentially be localized. Then finally there is a sunset provision which takes effect February 1 of 1997 if no applications have been approved for the act. That is the summary again of the committee amendments, and I'd move their adoption.

SENATOR CROSBY: Thank you, Senator Warner. Senator Bohlke.

SENATOR BOHLKE: Madam President, I move to divide Section 36 from the rest of the committee amendments.

SENATOR CROSBY: Thank you, Senator Bohlke. We...it is divisible. And, Senator Warner, which one would you like to start with first?

SENATOR WARNER: Could I ask, if there are not further requests I'd take up the balance and dispose of that and then we could deal with 36 when we had more people, unless there's a series of divisions.

SENATOR CROSBY: That's the only request for division we have, so we can take up that one.

SENATOR WARNER: If that's the case, I would just as soon take up the balance of the committee amendment and then we'll, with the exception of Section 36, then we can deal with that issue, because the school issue is all involved in this section, so...

SENATOR CROSBY: Thank you. We...Mr. Clerk.

CLERK: In that event, Senator, I have amendments to the
